

FAASTEAM presents:

# **THE LATEST in RNAV Approaches... AND 'WAAS new' with them?**

RNAV... LNAV... LNAV+V... L/VNAV... APV... LPV... LP... GPS... Are these terms and their meanings confusing to you? If so, make it a point to brush up on these and other important acronyms as we review the latest in RNAV/GPS approaches with Gold Seal and Master CFI John Mahany.

John Mahany makes his living teaching this subject and more to the professional pilot community. This event allows you to take advantage of his skill, and experience, at a no cost WINGS seminar!

**Directions:** First driveway going south past Airport Avenue (College Dr. - Traffic Light) Southeast corner of KSMO. Located inside the big green four story building on the first floor. Just enter through the front doors, and turn left at the first aisle. Room #123 will be to your right, at the end of the aisle. Plenty of free parking.

**A message from the National FAASTeam Manager**

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASteam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
